

## ▶ GUIDE 6225 CPN

A very versatile glove with cut-, puncture- and needle protection. The CPN technology in the palm and over the fingertips protects the most exposed areas of the hand from needles and sharp objects. The glove also features cut protection on the back of hand since the glove is knitted in fibres with cut protection level F.

**Typical applications:** Industry, cleaning, construction and craft applications, when there are risks of cut-, puncture- and needle injuries.

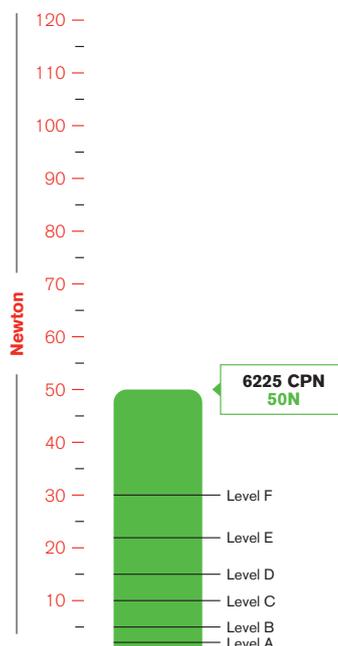

- 4 layers of protective mesh in the palm.
- 2 layers of protective mesh on the palmside of the fingers and over the fingertips.
- Cut protection fibre level F
- PU palm dipped
- Sizes 8-11

### Blade cut resistance, EN 388:2016

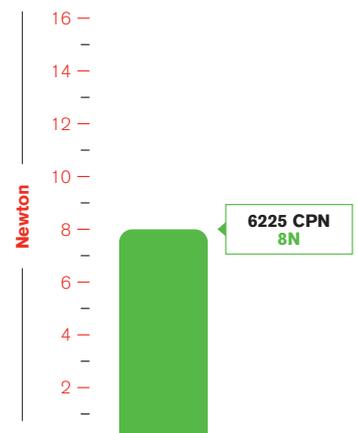

#### Palm protection

### Needle protection, ASTM F2878

#### 25 gauge hypodermic needle

#### Palm protection
